

 Nolato	Environmental Policy	Revision	5
		Issue date	2023-06-06

Nolato Stargard Sp. z o.o.

Nolato Stargard Sp. z o.o. makes every effort to protect and improve the environment as part of its business.

We achieve this by:

- maintaining and continuously improving our environmental management system, which meets the requirements of EN ISO 14001:2015 and legal regulations,
- rational management of raw materials, materials, waste, water, electricity and heating energy,
- constantly reducing emissions of pollutants and greenhouse gases,
- identifying environmental aspects and minimising their adverse impact,
- raising our employees' environmental awareness,
- using innovative and pro-environmental techniques in new investments.

The Environmental Policy is known, understood and respected by all employees of the company.

Operations Director
Dawid Urbański
