

Quality policy

Nolato Gota always puts its employees and thereby the customer at the center.

Our business with injection-molded products shall be characterized by a focus on customer satisfaction and feedback to continuously improve our capabilities. By this, we mean that all employees should be engaged in continuous and measurable improvements of our processes, with the goal that everyone always does everything a little better every day.

This means:

- We meet our customers' requirements on Nolato Gota
- Delivery with the right quality and quantity at the right time.
- Right from me, right to you mentality.
- Process stability.
- Goal-oriented teams
- Built-in quality
- Active 5S work throughout the business.

Active leadership, continuous skills development and strong commitment from all employees are prerequisites for our success.
